Information Disclosure Statement

No Ids after the one filed on 12/04/2006 has been filed in this case.

Allowable Subject Matter

Claims 9,10,12-14,16, 78-21,23-24,26-28,41-42,45-46,47.49-53, 56 and 58-61 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims (9,20,41,52 and 61) including the combination of elements i.e. does not teach, show, or suggest a display device having a light reflecting/transmission optical film which is arranged on a rear surface of the liquid crystal display layer, on substantially identical curved lines having a sector of a circle shape, the curved lines being separated at regular intervals, each interval having

a horizontal component and a vertical component, and comprises an array of diffraction grating cells arranged in a matrix, each cell comprising blazed type or binary type curved gratings having the same profile and arranged in parallel, wherein each side of each diffraction grating cell measures between about 5 μm and about 300 μm , and wherein said diffraction grating cells are located at positions corresponding to the pixels. (Applicants' have shown by their petition for change of inventorship, reference JP 2001/116908 to Takahashi is not a prior art reference under 35 U.S.C. § 102 and 103)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
